

Type of Infection	Panel	Description	Quantity	Catalogue Number
Respiratory Panels	SARS- CoV-2 Dual Target	Detects SARS-CoV-2 using both E gene and N gene targets in 53 minutes.	1 Kit (15 Cartridges)	F09G300711
	SARS-CoV-2 Dual Target, Flu A/B and RSV	Simultaneously detects Flu A/B, RSV, and SARS-CoV-2, in 53 minutes.	1 Kit (15 Cartridges)	F09G300747
	Viral Respiratory Infection (VRI)	Detects 10 viral respiratory infections, including Influenza A/B and RSV in 2.5 hours.	1 Kit (15 Cartridges)	F09G300382
	MPXV	Identifies Monkeypox virus and Orthopoxvirus species, in 45 minutes.	1 Kit (15 Cartridges)	F09G300868
	Bordetella	Detects <i>Bordetella pertussis</i> , <i>Bordetella parapertussis</i> , and <i>Bordetella homslii</i> in 47 minutes.	1 Kit (15 Cartridges)	F09G300976
Genitourinary Panels	Sexually Transmitted Infections (STI)	Screens for 7 bacterial STI infections and 3 viral infections, with comprehensive results available in 2 hours and 20 minutes.	1 Kit (15 Cartridges)	F09G300078
	MG, MH, UP/UU	Detects <i>Mycoplasma genitalium</i> , <i>Mycoplasma hominis</i> , and <i>Ureaplasma urealyticum</i> , in 53 minutes.	1 Kit (15 Cartridges)	F09G300705
	Urinary Tract Infections (UTI)	Identifies 16 uropathogens and 7 antimicrobial resistance genes in 2.5 hours.	1 Kit (15 Cartridges)	F09G300385
Gastrointestinal Panels	C. difficile	Detection of <i>Clostridium difficile</i> , in less than 50 minutes.	1 Kit (15 Cartridges)	F09G300885
	Norovirus	Identification of Norovirus in less than 1 hour, essential for outbreak management.	1 Kit (15 Cartridges)	F09G300879
	Rota-, Norovirus and C.diff	Detects and discriminates Rotavirus, Norovirus and <i>C. difficile</i> , in less than 1 hour.	1 Kit (15 Cartridges)	F09G300891
Hospital-Acquired Infections	MRSA/SA	Detects Methicillin-Resistant <i>Staphylococcus aureus</i> (MRSA) and <i>Staphylococcus aureus</i> (SA) in 53 minutes.	1 Kit (15 Cartridges)	F09G300622
	Bacterial Meningitis	Detects six bacterial pathogens causing meningitis, in less than an hour.	1 Kit (15 Cartridges)	F09G301118
	Candida auris	Identification of <i>Candida auris</i> in less than an hour.	1 Kit (15 Cartridges)	F09G301032

BOSCH

vivalytic

MAKING A POINT *to Care*

Viral Respiratory Tract Infections (VRI)

SARS-CoV-2, Flu A/B, and RSV

SARS-CoV-2 Dual Target

Bordetella

Candida Auris

MRSA/SA

C. difficile

Rota-, Norovirus & C. diff

Urinary Tract Infections (UTI)

Norovirus

Bacterial Meningitis

MPXV

Sexually Transmitted Infections (STI)

MG, MH, UP/UU

- Fully automated, sample to answer point of care PCR testing
- Unique test menu covering a diverse range of respiratory, genitourinary and hospital acquired infections
- Wireless connectivity, no peripherals required making Vivalytic a unique space-saving & hygienic solution
- High-Plex & Low-Plex Capabilities. Powered by Randox Biochip Technology enabling multiple results from one patient sample
- Easy 4 step process from sample entry to results. No laboratory training required
